Baby Chick Head of Riboflavin Is Cured

Cured Toe Paralysis Caused by Deficiency

Riboflavin, one of the vitamins of the B complex, is found in milk products, liver, eggs, yeast, and green leafy vegetables.

Chick at left cured by riboflavin in week later. Chick at right is normal.

BURNING DESTROYS SOIL

When you burn stubble, straw, and other crop residues, you burn up your soil's organic matter. You lose valuable soil nutrients, including nitrogen, phosphorus, potash, and sulphur. Burning destroys organic matter and its products of decay.

New Disease of Sweet Potatoes in the South

A new and serious disease of sweet potatoes, known as "internal cork" has been found in extensive studies by Dr. Horace Graham, South Carolina experiment station. Characteristics of the disease are a reduction in size. There are no external symptoms. The disease is caused by a virus.

Dr. J. Clayton Allen and L. O. Gratz of the University of Chicago have received a grant in Science about it.

Farmers' Money Not All Increased Earnings

What farmers have to show for their labor and investment in 1946 is more than double the 1935-39 average, but the cost of things they have to buy is also more than double. Thus, the farmer's dollar buys a little less than half as much as it did in the 1935-39 period.

Farmers' net income from farming operations in 1946 was $16,000,000,000, or $2,000,000,000 more than in 1945. Farmers' net income from farming operations in 1947 is expected to be around $15,000,000,000.

Trapping Is Good Way To Control Moles

In the spring the activities of the common mole become more noticeable. Tunneling is more frequent and more mounds are thrown up. Earthworms and grubs are the mole's principal food. Trapping is the most effective, but it is tedious work. So far, we've been grasping at straws.
